

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name: NN (L) Energy - P Cap USD

NN (L) Energy, A sub-fund (hereafter referred to as the fund) of NN (L)

Manufacturer: NN Investment Partners B.V. which forms part of the Goldman Sachs group of companies

Product code: LU0119201019

Website: www.nnip.com/en-INT/non-professional/about/contact

Competent Authority:

The Manufacturer is authorised in The Netherlands and regulated by the Autoriteit Financiële Markten (AFM), and relies on passporting rights under the UCITS Directive to manage the Fund on a cross-border basis and to market the Fund within the European Union.

This fund is authorised in Luxembourg, under the surveillance of and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Production date: 2023-01-31

What is this product ?

Type

NN (L) is an undertaking for collective investment organized under the laws of Luxembourg as a société d'investissement à capital variable (S.I.C.A.V.) and qualifies as a UCITS. NN (L) is registered pursuant to Part I of the Law of 17 December 2010 and is established as an "umbrella structure" comprised of a number of sub-funds. You are purchasing a class of shares in the sub-fund.

Term

The term of the Fund is unlimited and therefore there is no maturity date. The Manufacturer may not unilaterally terminate the Fund, however, the directors of the Fund and/or the investors of the Fund may in certain circumstances set out in the Prospectus and constitutive document of the Fund, unilaterally terminate the Fund. Cases of automatic termination may be foreseen by laws and regulations applicable to the Fund.

Objectives

The fund invests in Energy companies worldwide. This includes companies carrying out their business activity in the following industries: oil and gas exploration, production, refining and/or transportation and energy equipment and services. The portfolio is diversified across countries. The fund uses active management to target companies that score well according to our systematic investment process, with stock and sub-sector deviation limits maintained relative to the benchmark. Measured over a period of several years, we aim to beat the performance of the benchmark MSCI World Energy 10/40 (NR). The benchmark is a broad representation of our investment universe. The fund may also include investments into securities that are not part of the benchmark universe. Investors should be aware that the index's investment universe is concentrated and, as a result, the Sub-Fund is concentrated. This will typically result in a comparable composition and return profile of the Sub-Fund and its benchmark. The fund's stock selection process is driven by the analysis of fundamental and behavioural data and includes the integration of ESG factors. You can sell your participation in this fund on each (working) day on which the value of the units is calculated, which for this fund occurs daily. The fund does not aim to provide you with a dividend. It will reinvest all earnings.

The return of the Portfolio depends on the performance of the Portfolio, which is directly related to the performance of its investments. The risk and reward profile of the Portfolio described in this key information document assumes that you hold your investments in the Portfolio for at least the Recommended Holding Period as set out below under the heading "How long should I hold it and can I take money early out".

Please see the section "How long should I hold it and can I take my money out early?" below for additional details (including restrictions and/or penalties) on the ability to redeem your investment in the Fund.

Intended retail investor

Shares in the Portfolio are suitable for any investor (i) for whom an investment in the Fund does not constitute a complete investment program; (ii) who fully understands and is willing to assume that the Fund has a risk of 6 out of 7, which is the second-highest risk class, and assume the risks related to an investment in the Fund, including market and/or credit risk and has appropriate experience and theoretical knowledge of the risks of investing in the Fund; (iii) who is neither a U.S. Person nor subscribing for Shares on behalf of one or more U.S. Persons; (iv) who understands that they may not recover any or all of the invested amount and can bear the loss of their entire investment; and (v) who are looking for long term investment.

Fund depositary: Brown Brothers Harriman (Luxembourg) S.C.A.

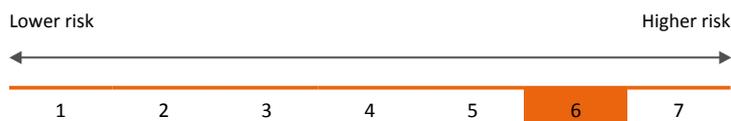

Further information: The Prospectus, annual and semi-annual reports are available free of charge in English, German, French, Dutch, Spanish, Czech, Italian, Greek, Slovak, Hungarian, Portuguese and Romanian at <https://www.nnip.com/library>.

The prices of the shares/funds will be made public on the website <https://www.nnip.com>

This Key Investor Information describes a sub-fund of the fund NN (L). The prospectus and the periodical reports for the fund are prepared for the entire fund including all its sub-funds. Under Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment sub-funds assets and liabilities of the sub-funds of the fund are segregated and may be deemed to be separate entities for the purpose of the relations between investors and may be separately liquidated.

The investor has the right to switch between sub-funds of NN (L) under specific conditions. More information on these can be found in the prospectus.

What are the risks and what could I get in return ?

The real risk may be significantly different if the Product is not held to maturity. The risk indicator assumes you keep the product for 7 year(s).

We have classified this Fund as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the Fund's capacity to pay you.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to cash in early. You may have to pay significant extra costs to cash in early.

Be aware of currency risk. You will receive payments in a different currency than the official currency of the Member State where the Fund is marketed to you, so the final return you will get depends on the exchange rate between the two currencies. The risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of the risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Other Material Risks relevant to the Portfolio not included in the summary risk indicator are set out in the Prospectus.

If the Fund is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 12 years. Markets could develop very differently in the future

| Recommended Holding Period: 7 years | | | |
|-------------------------------------|---|--------------------------|---------------------------|
| Example Investment: 10,000 USD | | | |
| | | If you exit after 1 year | If you exit after 7 years |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | 280 USD | 80 USD |
| | Average return each year | -97,22% | -50,11% |
| Unfavourable | What you might get back after costs | 3,530 USD | 3,110 USD |
| | Average return each year | -64,73% | -15,37% |
| Moderate | What you might get back after costs | 9,830 USD | 7,830 USD |
| | Average return each year | -1,75% | -3,44% |
| Favourable | What you might get back after costs | 19,830 USD | 14,080 USD |
| | Average return each year | 98,25% | 5,01% |

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where the Fund is not able to pay you.

Unfavourable scenario: This type of scenario occurred for an investment (Benchmark: MSCI World Energy 10/40 (NR)) between 2013-03-18 and 2020-03-18.

Moderate scenario: This type of scenario occurred for an investment (Benchmark: MSCI World Energy 10/40 (NR)) between 2011-12-10 and 2018-12-10.

Favourable scenario: This type of scenario occurred for an investment (Benchmark: MSCI World Energy 10/40 (NR)) between 2015-12-21 and 2022-12-21.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if the Manufacturer is unable to pay out ?

You may not face a financial loss due to the default of the Manufacturer. The assets of the Fund are held in safekeeping by its depositary, Brown Brothers Harriman (Luxembourg) S.C.A. (the "Depositary"). In the event of the insolvency of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary). Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs ?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested

| Investment of 10,000 USD | if you cash in after 1 year | if you cash in after 7 years (Recommended Holding Period) |
|--------------------------|-----------------------------|--|
| Total costs | 501 USD | 1,450 USD |
| Annual cost impact (*) | 5,0% | 2,4% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be:

- 1,06% before costs and
- 3,44% after costs.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|--|---|--------------------------|
| Entry costs | 3,00% (max) of the amount you pay in when entering this Investment. | 300 USD |
| Exit costs | 0,00% of your investment before it is paid out to you. | 0 USD |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1,84% of the value of your investment per year. | 184 USD |
| Transaction costs | 0,18% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 18 USD |
| Incidental costs taken under specific conditions | | |
| Performance fees and carried interest | 0,00% The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 7 years. | 0 USD |

How long should I hold it and can I take the money out early ?

Recommended holding period: 7 year(s).

The Manufacturer considers this to be an appropriate period of time for the Fund to be able to implement its strategy and potentially generate returns. This is not a recommendation to redeem your investment after this time and while longer holding periods allow greater time for the Fund to implement its strategy, the outcome of any holding period with respect to investment returns is not guaranteed. Investors may redeem their shares on any Business Day (as defined in the Prospectus) by giving prior written notice as further described in the Prospectus. Redeeming your shares in the Fund before the recommended holding period may be detrimental in terms of your return and may increase the risks associated with your investment, which may lead to the realisation of a loss.

How can I complain ?

If you choose to invest in the Fund and subsequently have a complaint about it or the conduct of the Manufacturer or any distributor of the Portfolio, you should in the first instance contact the Client Servicing Team at NN Investment Partners B.V. via email at client.servicing@nnip.com, by post NN Investment Partners B.V., Prinses Beatrixlaan 35, 2595 AK, The Hague, the Netherlands or by consulting the following website, www.nnip.com/en-INT/non-professional/about/contact
